

## **FOOD & ANIMAL FEED SAFETY POLICY**

The Management, Staff and operatives of Quay Transport Ltd do not come into direct contact with any food or feed product under normal operating conditions. However, they are responsible for ensuring the equipment (tank container or road tanker) used to transport the food/feed product is clean and suitable to load it and all necessary actions are taken to protect the integrity of the product.

Therefore, it is essential that all controls be implemented to ensure preservation of the product. Such controls are set out in Operating Procedure SQP19

Quay Transport Ltd understands its responsibilities for the products and/or tanks put in their care by all customers. This is the reason for documenting and implementing this policy that will ensure compliance with both legal requirements and industry standards.

Operations concerning foodstuffs or feed will be managed in accordance with industry standards and complemented by any other industry or customer requirements.

The Managing Director is responsible for ensuring that all Management and Staff work in compliance with this policy and the Management and Staff will be directly responsible to him for complying with the Policy at all times.

The Company will be accountable to the Customer for any issues relating to their product while in their care.

This policy will be reviewed regularly, particularly when the business changes in nature and size
